

Uva de Vida 'Biografico' Tempranillo

(Vdt Castilla)

100% Tempranillo

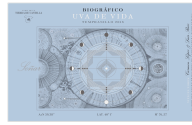

The Uva de Vida Tempranillo is made like a Rosado, having only spent several hours on the skins versus days or weeks, yet comes across in the glass as a light, fresh, and chillable red. Hand harvested, native yeast fermentation, and with no filtration or added sulfites, the result has an aromatic floral quality that is backed by fresh berry fruit, and hints of earthy dust. In the mouth, the wine is fresh with acidity, but has enough grip from the tannic nature of the grape to keep the structure in line with the lifted fruity quality, and long spicy finish. Best served at cellar temperature.
