‘Our philosophy is centered around the grapes – More viticulture and less architecture’ – Jose Manuel

Since 1999, Jose Manuel has developed a reputation amongst his peers, as one of the top winemakers in Spain. His bodega produces less than 5,000 cases per year of small lot, hand-crafted wines from approximately 18 hectares of vineyards within the Tierra Estella sub-region of Navarra in Northern Spain. With his wife Maria Saenz-Olazabal, the two enologists have created two stunning lines of wines: Alzania, and Saenz-Olazabal. Jose Manuel's vineyards are never irrigated, never see herbicides or chemicals, and his plants produce between 3,000 to 5,000 kg/hectare on average. As a minimalist in the cellar as well, natural fermentation takes place for all of the wines, carefully thought out oak treatments are used to complement the variety, and remarkably low amounts of sulfites are used during the process. These wines are truly a magnificent approach to both international grapes and the local expression of Garnacha, and continue to express more and more of the territory year after year.

‘A land of good grapes, and optimum wine’ – Calistinus Codice*

Alzania's 2016 Finca la Moneda is a powerful and well-balanced wine that is outstanding now, but will keep for 10 years. Named for the coins and treasures found in the vineyards surrounding the estate, this wine's varietals are fermented separately and naturally in stainless steel tanks. The wine is placed into an assortment of wood barrels from France, America, and Hungary, and rests there for twelve months before bottling. This robust and full-bodied red shows luscious aromas of mature red and black fruit give way to layers of herbs, spices, eucalyptus, and mineral notes. With luscious but firm tannins, this wine holds its focus nicely throughout the long, rich finish.
