

Famille Fabre 'Équilibre' Cabernet Sauvignon

(IGP Pays d'Oc)

100% Cabernet Sauvignon

The Équilibre Cabernet Sauvignon is a pure Cabernet from the Languedoc region in the south of France, coming from a 3-hectare plot of 20-year-old vines. The grapes are brought to the cellar for a cold maceration with the skins and fermentation using the 'pied de cuve' in stainless steel. This 'mother' style inoculation uses a yeast called bioprotection which encourages very healthy micro-organisms to aid in the fermentation over bad bacteria and any spoilage type yeasts, as this wine never sees any use of sulfites from start to finish. This lends to a gorgeously bright and vibrant expression of the Cabernet grapes. Licorice, blackberry, and tangy spice explode in the nose, while this fresh red gives a soft yet exciting mouth-feel full of black cherry, juicy blackberry, clove, and black pepper.
