

Fatalone 'Teres'

(IGT Puglia)

100% Primitivo

Fatalone's Teres is a unique and delicious light red wine coming from the Gioia del Colle clone of Italy's Primitivo grape. This organic wine comes only from the free-run juice of the second budding fruit (the only vine of the entire Mediterranean to fruit from its secondary budding), which has less of a full-body character, a more delicate palate, and a lovely sweet smell. Having spent only 36 hours on the skins, and 15 months of aging in only stainless steel in a zero-emission winery, the Teres is a fresh, mineral driven red, full of lovely fruit and earth, and is ideal for foods of many types.
