

Franco Fiorini Rosso di Montepulciano

(Rosso di Montepulciano DOC)

100% Prugnolo Gentile (Sangiovese)

Between the rich volcanic rock and sandstone soils, and the small micro-climate of the Montepulciano area, this Rosso is a beautiful expression of the local Sangiovese. After fermentations, the wine is transferred to medium sized barrels of Slavonic oak, to ensure the organic fruit stays pretty and focused in the final wine. Dark brambly fruit comes through strongly, accompanied by earthy underbrush, and touches of spice.
