

LaSelva Morellino di Scansano

(Morellino di Scansano DOCG)

Morellino (Sangiovese) & Merlot

LaSelva®

The Morellino di Scansano is from this newer Sangiovese D.O.C.G., which is known for a more lifted tone of fresh red fruit for this incredibly complex red grape. The Sangiovese here is blended with 10% Merlot to add a rounded compliment to the well-fruited, yet angular grape of the zone. Without oak aging, and a light filtration after a nominal addition of SO₂, the wine was released and is a phenomenal example of the classic style of the wines from this zone. Elegant and spicy, with wild red berry fruit and fresh acidity, this wine is very expressive and is a wonderful accompaniment to roasted meats, grilled game, and firm sheep's milk

cheeses.
